## Annexure-1

### 2.3.1 STUDENT-CENTRIC METHODS ARE USED FOR ENHANCING LEARNING EXPERIENCES

Our college has made provision to give students experiential and participative learning experience. Since students vary in their ability to comprehend and absorb it is not possible to address the needs and expectations of individual students and expect a uniform learning outcome from them all in a teacher centric class. The teacher facilitates learning by allowing each individual student to comprehend at their personal level by ensuring their involvement in class activities so that they can absorb and grasp information at their own pace.

#### **Problem solving methodologies:**

Implementing in-class problem-solving exercises like case discussion can help students to learn problem-solving strategies from the beginning. These programs encourage social and cognitive growth and give the students the skills they need to face and solve their everyday challenges in our profession.

Students receive practical experience of different clinical situations, and are trained as capable and competent clinicians to handle the same with confidence.

#### **Participatory Learning:**

Group discussions, Journal clubs, chair side discussions are conducted in all departments. Students are encouraged to participate in group projects and other activities like Poster presentation, Paper presentation, Table clinics, Quiz, debate etc.

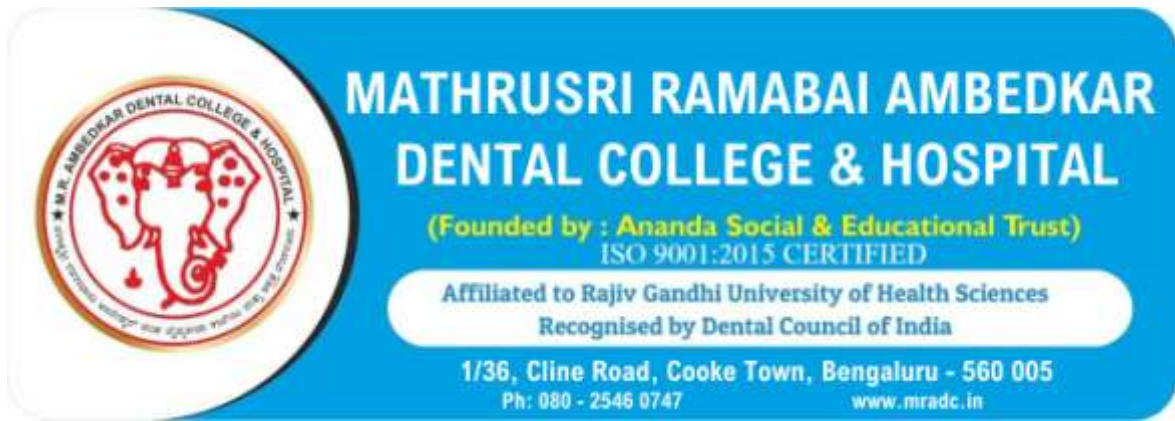

Assignments, Classroom Seminars and open-ended questions in the classrooms are encouraged to boost the students' analytical skills

P.R.P. P

PRINCIPAL

M.R. Ambedkar Dental College & Hospital  
Bengaluru - 560 005

### **Integrated learning**

Interactive multimedia and computer-assisted learning are used to yield good results in clinical decision making. Students in clinical postings observe and assist the interdisciplinary treatment provided by the faculties.

Interdepartmental seminars are held at regular intervals. These seminars are conducted to give students and teachers from all departments, a platform to exchange knowledge and resources. It also encourages a research culture among students and teachers. It gives students the freedom to explore different dental subjects, which can be usefully used as a source of reference to treat different dental challenges in the future.

### **Learning in Humanities**

Nurturing the professional and personal development of dental students increases the clinical capabilities and enhances their professional and personal development in delivering holistic patient care. These humanitarian qualities will ensure that students contribute to society. Camps are organized at various old age homes, blind schools, handicapped school etc. for students to understand the essence of giving back to the society and the underprivileged.

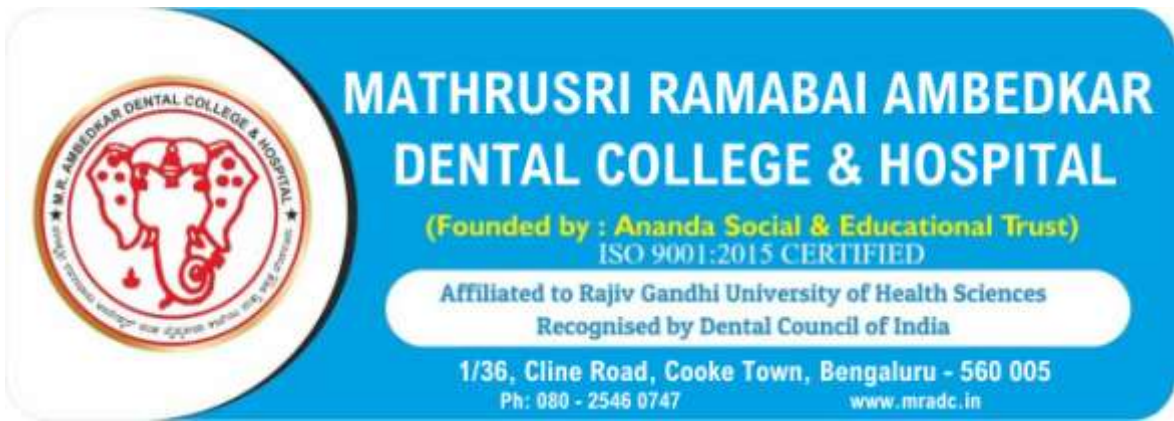

These camps held from the college helps students to understand humanitarian grounds of treatment. Such programs not only encourage our student to treat any challenging patients but also improve their holistic approach in life and society.

### **Patient centric and evidence-based learning**

We encourage evidence-based clinical guidelines, has ready access to all kinds of online information using web browsers to keep up with the advancements.

  
PRINCIPAL  
M.R. Ambedkar Dental College & Hospital  
Bengaluru - 560 005

### Project Based Learning

Undergraduates are also encouraged to make projects on different topics in every department. As per University curriculum it is mandatory for the MDS students of all the specializations to carry out thesis and library dissertation.

### Role play

The benefit of role-playing teaching method helps the students to develop their self-learning, critical thinking and problem-solving abilities.

## BASIC LIFE SUPPORT WORKSHOP AND DISASTER MANAGEMENT:

M. R. Ambedkar Dental College & Hospital,  
# 1/36, Cline Road, Cooke Town, Bengaluru-560005

Ref: No. MRADC/Day/3/191 / 2022-23 Date: 19/05/2023

**CIRCULAR  
IQAC CELL (INITIATIVE)**

In co-ordination with JSSRC (JSS) a workshop on **Basic Life Support** has been arranged by our college from **22<sup>nd</sup> May 2023** to **24<sup>th</sup> May 2023**. The workshop will provide training in Basic Life Support for the Staffs / Post Graduate Students and Teachers of our institution.

The Workshop will be for **Three Days: 93 credits**:  
• One module credit - 30.00001

All participants shall receive Certificate from the organizers, and is valid for **30000** hours for a period of **03** years.

For Registration contact:  
Dr. Jayashree B, PGC & BOD, Dept. of Periodontics  
Dr. Shobha K. Reddy, Dept. of Periodontics  
Dr. Balraj B.V. Sr. Lecturer, Dept. of Oral Surgery  
Vessal College Auditorium

The course is **MANDATORY FOR ALL TEACHING STAFFS / POST GRADUATE STUDENTS & INTERNS**.

The HODs are hereby informed to make required arrangements for attending the program in batches without hampering the routine academic work and smooth functioning of the clinic.

POSTER

**Pocket Depth V/S Clinical Attachment Level**

**Measuring Pocket Depth (PD)**  
PD is the distance from gingival margin to base of sulcus or periodontal pocket as measured with a probe. PD is not a reliable measure because this measurement is made from gingival margin. The position of gingival margin changes with tissue swelling, overgrowth and recession.

**Clinical Attachment Level (CAL)**  
CAL is the extent of periodontal support that has been destroyed. CAL is calculated from measurement made from the CEJ which is a fixed point. CAL provides a reliable indicator of extent of bone support for a tooth.

**ORAL HYGIENE INSTRUCTIONS**

- Mechanical Methods**
  - BRUSHING** (Brush twice daily)
  - TONGUE CLEANING**
  - INTERDENTAL BRUSH AND FLOSS**
- DRY**
  - VEGETABLES AND FRUITS** (Eat daily to maintain an adequate level of saliva)
  - SWEETS AND STICKY FOOD** (Such food should be avoided whenever possible)
- HABITS**
  - SMOKING AND PAIN CREAMING** (Smoking and pain creaming should be avoided)
  - ORAL CANCER** (Brushing and good cleaning the inner side of the lower lip with cancer stick)
- PROFESSIONAL HELP**
  - DENTAL VISIT** (Check twice a year)
  - ORAL PROPHYLAXIS** (Brush with toothpaste)
  - MOUTH WASH** (Use as an adjunct to tooth brush)
