Policy document

Our institution takes immense interest in maintaining cordial and continuous association with the parents and/or the guardians of the students admitted to our institution for both graduate and undergraduate courses. After the admission and registration of the students in the institution the first parent-teachers meeting is the orientation day program. On this day the parents and/or guardians accompany their respective wards. The details about the institution, campus facilities, library, canteen, hostel facilities and the course schedule are provided to all in the form of a presentation. Students and their guardians are given a tour of the college campus and the departments. Parents interact with the teachers to clarify all their doubts and gather required information.

There are regular periodical parent-teachers meetings being conducted for all the batches. Our Principal is the chairperson for all the meetings that are conducted. There is a faculty team who monitors student attendance, academic performance and their general behavior. They maintain the email list and contact numbers of the parents and/guardians. They are kept updated about their wards regularity to college and their assessment progress. Any deviations from normal are informed to them. In case of poorly performing students the parents/guardians are called for face-face meetings with the in charge faculty and head of the institution. The attendance requirement as per the RGUHS guidelines is followed and students and parents are informed in case of shortage.

Students who reside in the hostel are constantly monitored by the hostel warden. The warden maintain the email list and contact numbers of the parents and/guardians of the hostel residents. In case of any deviations of the students from following the rules and regulations warden contacts the parents over phone and if required calls for face-to face meetings.

The institution also invites parents during the graduation day and annual day celebrations that are celebrated in an enthusiastic grandeur. All the parents and/or guardians receive personal invites to attend the program. The parents are given an

opportunity to interact with the teachers about the progress and behavior of their respective wards and also to provide feedback about the functioning of the college, teaching protocols and administrative regulations.

The feedback provided by the parents is taken forward in a constructive manner. The college management, Principal and the faculty members discuss and decide to make any changes required to satisfy the students and/or the parents within the jurisdiction of the university regulations and institutional facilities.

Though the institution is a university level education provider the interaction between the teachers and the guardians is required to improve the standard of education the student is achieving. Since all the students are adults the conducting of these meetings is done with their consent. They are made aware of the need for this in their overall development. The periodic parents-teachers meeting are a necessary component of the routine working of an educational institution. These meetings greatly contribute to the improvement of the student learning standards and faculty's teaching and assessing strategies.
