This is to inform that Dr. Adiba Fathima has worked in this clinic, as a Clinical Observer from November of 2018 to January, 2019, and as a Clinical Assistant from February 2019 to August 2019.

During this Period, she was assigned to handle the new Out-patient cases for Preliminary Consultation and Routine Dental procedures such as Scaling and Filling, including Paediatric Pulpotomy. Under the guidance of Visiting Specialist Consultants, she also had to cater to the treatment needs of patients, who required specialist procedures like Root Canal Treatment and Gingival Surgical Procedures.

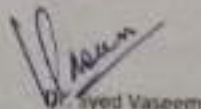

During the time working here, she had developed a good rapport with the patients and was keen to know the treatment protocols followed during the dental procedures.

I believe that Dr. Adiba will make an excellent future dentist, based on her work with me. She has professional and calming chair-side manners.

I wish her all the best for her future endeavours.

Dear Shivesh,

Welcome to CACTUS! We are happy to have you with us and we hope you feel the same.

In 2002, CACTUS started as a small dream to help authors break the barriers of language and geography and get published. Over the years, we have built a dedicated team to offer communications solutions to pharma, biotech, and medical device companies; partnered with publishers, journals, societies, and universities; built a wealth of resources for researchers; created media services to make science accessible to everyone; and developed technology solutions for the researcher ecosystem. We have evolved from a language editing company with a presence in Asia to a global technology company that is making inroads in every avenue of the research and publishing landscape.

Our mission is to enable people to reach their highest potential. We aim to be the voice of science, spread research through innovation in technology, help the scientific community reach a global audience, and create a meaningful impact on everyday life. We hope you will join the growing CACTUS community in contributing towards this aim.

While we are a customer-focused company, the growth and happiness of our Cactusians is equally important to us. We have fostered an open culture that's unique to CACTUS—that lets you be yourself and voice your opinion, and at the same time one that demands excellence and dedication to the customer and the organization's values.

CACTUS is a Remote-first company. Although we have several office locations, it's not a requirement to travel into the office daily. You have the flexibility to decide where to work and can live anywhere in your home country. We encourage everyone to think like a remote worker and use the intranet, MS Teams, and our social media platforms to stay connected with your team and stay updated on everything about CACTUS.

I hope you will find your journey at CACTUS rewarding. I look forward to interacting with you soon.

All the best and stay safe!

Warm regards,

Abhishek Goyal

EXPERIENCE CERTIFICATE

Jafson Dental & Implant Centre is a Covid-Compliant, Multispecialty Dental and Implant Centre. This Clinic provides General as well as Advanced Dental Treatment to domestic and International patients.

This is to certify that Dr. SIMRAN BANU has worked at Jafson Dental and Implant Centre as a part-time dentist from 05.11.19 to 20.01.21 during the tenure of her internship at MR Ambedkar Dental College and Hospital. Following which, she was employed as a Full-time General Dentist, from 20.01.21 to 10.02.23.

During this period her roles and responsibilities included:

- Examine oral cavity, diagnose diseases and plan appropriate treatments.
- Perform oral prophylaxis and instruct patients on oral hygiene.
- Restore cavities, apply pit and fissure sealants, pulpotomy and stainless-steel crowns for pedodontic patients.
- Perform root canal therapy particularly using Rotary Endodontics, post and core build-up and crown preparations.
- Perform operculectomy, gingivectomy and other laser-assisted treatments independently.
- Tooth extraction: surgical and non-surgical, surgical flap opening, placing and removing sutures.
- Design bridgework, crowns and veneers, remove a partial denture and complete dentures.
- Aesthetic restoration of anterior teeth and cosmetology procedures like dental bleaching using Philips Zoom Whitening.
- Assisted in multiple basal & intracranial implant placement and implant prosthesis.
- Determine special cases and refer patients to specialists as required.
- Supervise dental appointments, managerial and administrative responsibilities in the clinic including all aspects of clinic operations, staff management, patient relations and particularly maintaining clinic accounts.

During her tenure I found her to be incredibly hard working. She possesses impeccable communication skills and is dedicated in clinical works. I would undoubtedly recommend Dr. Simran Banu to work in similar and better set-ups for the benefit of the patients in particular and the organization at large.
