CERTIFICATE OF THE HEAD OF INSTITUTION

This is to certify that our Institution has clearly stated vision and mission which are reflected in its academic and administrative governance.

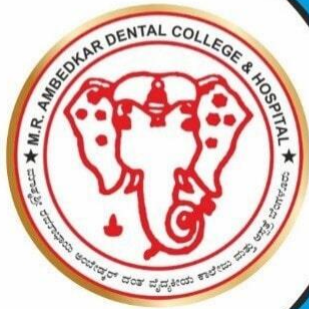

Our institution has clearly focused on its primary vision and mission. We have organized various academic programmes in order to upgrade the clinical skills in staff and students in the last few years. Various Quality improvement programmes have been conducted for the betterment of staff and students. Institution has conducted several outreach programmes like camps in urban and rural areas, vaccination drives helping general public to receive health care benefits. Several value added courses were organized to enhance overall education and skill set of students. These courses often provide students with specialized knowledge and practical skills that can be beneficial in their future and career. Various add-on courses offering students to delve deeper into specific areas of dentistry or acquire skills that can enhance their overall professional profile have also been conducted

RESEARCH GRANTS RECIEVED

icmr
INDIAN COUNCIL OF
MEDICAL RESEARCH
Serving the nation since 1950

Corrigendum No.21/2/2022/HRD-STs
Date: 20.06.2022

SHORT-TERM STUDENTSHIP (STS-2022)

Proposal Result

1. The final updated list of students selected for STS-2022 Program is displayed below in order of their STS-2022 Reference ID.
Please note: Always quote your STS Reference ID for any future correspondence emails to ICMR.
2. The 'Approved' students as listed below for STS-2022 may carry out the proposed research work and prepare the report in any two months until 31st October, 2022.
3. Research should be done after appropriate Institutional Ethics Committee (IEC) approval has been obtained. The ethical clearance letter has to be submitted along with report (IEC approvals should be taken by latest by 31st August, 2022, any IEC letter/approvals taken after 31st August, 2022 will not be considered as the student will not get two months of time for carrying out the work and submit the due report by the deadline given).
4. ONLINE report submission will commence from 16th August, 2022 (Tuesday, 10:00AM onwards) to 31st October, 2022 (Monday, till 5:00PM) only.
5. The decisions taken by ICMR is/will be final for all. No correspondence in the matter will be entertained.

Kindly read the detailed report submission guidelines and instruction given on the STS website

GENERAL ENQUIRIES to be sent through email to stshrd2017@gmail.com or call on extn.no. 306, 369

DETAILS OF SHORT TERM STUDY

SL NO	TITLE OF THE PAPER	STAFF/STUDENT
1	Assessment of the Usefulness of Morphometric and Volumetric Analysis of Mastoid Process for Gender Determination in Forensic Odontology: A Retrospective Cone Beam Computed Tomographic Study	Dr. Vaishali M.R. Dr. G Roopashri Dr. Binindita Mondal
2	Tongue Replica for Personal Identification: A Digital Photographic Study	Dr. Vaishali M.R. Dr. C. Sreepradha
3	Gender Determination from measurements of piriform aperture- A Digital Posteroanterior Skull study	Dr. Maria Priscilla David Dr. Sangeetha S Dr. Suganya B
4	Knowledge and Awareness of Oral Health in Adult patients with Diabetes Mellitus : A questionnaire study	Dr. G Roopashri
5	Evaluation of Foramen Magnum in Gender Determination by Using Digital Submentovertex Radiographs.	Dr. Vaishali M.R. Dr. G Roopashri
6	Salivary cotinine test for assessment of tobacco exposure in adolescent population - ongoing.	Dr. Vaishali M.R.
7	Assessment of mental Health status among Dental students during Covid-19 Pandemic	Dr. Sangeetha S Dr. Shrabani
8	Gender Determination from Measurements of Mental Foramen- A Digital panoramic Radiographic Study	Dr. Archana Markande Ms. Shruthi
9	Assessment of cortical integrity as observed on a cone beam CT as a predictor for paresthesia post third molar removal surgeries	Dr. Vaibhav N
10	Comparison of impacted mesioangular with vertically impacted mandibular third molar wound healing after disimpaction with and without combination of platelet-rich fibrin and beta Tricalcium phosphate as grafting material	Dr. Sunil S. P
11	Comparison between OPG and IOPAR for assessment of status of impacted 3rd molars	Dr. Karthik N
12	Comparative study between ridge split and autogenous bone grafting ridge augmentation procedure	Dr. Balraj B.V.
13	Evaluation of personality traits in subjects seeking orthodontic treatment- a cross sectional questionnaire based survey	Dr. Tarulatha
14	Awareness and knowledge about covid 19	Dr. Chaitra K R
15	Treatment of gingival hyperpigmentation using diode laser with and without PRF: a split mouth randomized study	Dr. Hemalatha.M Dr. Miranda Thomas
16	Correlation between gingival biotype and width of keratinized gingiva with the periodontal clinical parameters	Dr. Hemalatha.M Dr. Miranda Thomas
17	3. Incidence of cervical hypersensitivity after periodontal therapy- a retrospective survey	Dr. Hemalatha.M Dr. Miranda Thomas
18	Salivary micro-rna 155, 146a/b, 203 as potential diagnostic	Dr. Hemalatha.M

EXTENSION ACTIVITIES& COMMUNITY OUT REACH PROGRAMS

Community-based learning is a deliberate pedagogical approach that integrates academic instruction with active community engagement. At M.R. Ambedkar Dental College and Hospital, this approach is embodied through a variety of programs and initiatives designed to connect students with real-world challenges and opportunities for service.

One of the key initiatives is the **Danta Bhagya** program, which represents a cornerstone of our community-based learning strategy. This program has been instrumental in providing dental care to a wide range of beneficiaries across multiple satellite and rural health centers affiliated with our institution. Through Danta Bhagya, we have extended our outreach, offering preventive, diagnostic, and treatment services to underserved populations, thus aligning academic learning with community service.

In addition to **Danta Bhagya**, our institution regularly organizes **screening and treatment camps**. These camps serve as a practical extension of classroom learning, allowing students to apply their theoretical knowledge in real-world settings. They actively participate in various aspects of these camps, from conducting screenings and performing dental procedures to engaging with patients and understanding their needs. This hands-on involvement is crucial for reinforcing their learning and developing a deeper understanding of community health issues.

By integrating these activities into the curriculum, M.R. Ambedkar Dental College and Hospital ensures that students not only acquire academic knowledge but also develop practical skills and a commitment to community service. This approach fosters a well-rounded educational experience, preparing students to become competent professionals who are sensitive to the needs of diverse populations.

Curaden-2018

This CERTIFICATE

is awarded to

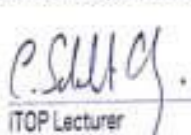

Mathrusri Ramabai Ambedkar Dental College & Hospital

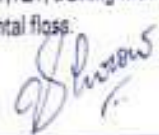

This to certify that postgraduate students and staff members of the Department of Periodontics have successfully completed iTOP Introductory seminar. iTOP - individually trained oral prophylaxis is a one-day seminar that incorporates practical, hands-on learning and a focus on the motivation needed to implement this knowledge on a daily basis so that your patients can be set up for a lifetime of oral health.

Postgraduate students and members of the staff have completed Touch to Teach (T2T) training with the following tools: Interdental brushes, toothbrush, solo brush and dental floss.
