## MAINTENANCE REPORT OF WATER CONSERVATION FACILITIES:

The maintenance of water conservation infrastructure, including rainwater harvesting tanks, overhead tanks, and the distribution network for water supply across all college blocks, as well as the maintenance of reverse osmosis drinking water facilities, is thoroughly managed. Mr. Shivakumar has been designated as the Maintenance supervisor responsible for managing the maintenance of these water facilities under the guidance of the manager.

Supervisor Mr. Shivakumar organizes teams to perform tank cleaning activities on a rotational basis every six months for each tank. Additionally, the cleanliness of water bodies is monitored by Supervisor Mr. Shivakumar on a regular basis, with thorough inspections conducted thrice a month. Furthermore, Manager randomly inspects these water bodies to ensure their proper upkeep and sanitation.

Annual Maintenance Contract of reverse osmosis drinking water is given to water life technology which maintains the drinking water facilities on annual basis

TANK – ONCE IN 6 MONTHS

RO FILTERS- ONCE IN 12 MONTHS
