## COMPREHENSIVE / INTEGRATED CLINIC

This is to certify that a designated clinical area is available in the ground floor for the Department of Comprehensive/ Integrated clinic. As oral health is a mirror of systemic health, this clinic caters to preventive and curative oral health needs of patients less than one roof with unstinted support from all the clinical departments. This helps in fast track treatment of the patients. Students are trained in this clinic assisting them to be competent in various specialties of dentistry.

## IMPLANT DENTISTRY CLINIC

This is to certify that a designated clinic area is available as the Department of the Implant Dentistry in the third floor. Successful dental implant treatment requires careful treatment planning, meticulous surgical technique, and precise prosthetic restoration. The clinic is isolated from the regular under graduate and post graduate clinical areas. The Implant clinic incorporates physio-dispenser units, multiple implants with various dimensions along with their abutments and other equipments for implant surgery. The ultimate goal of dental implant therapy is to satisfy the patient's desire to replace one or more missing teeth in an esthetic and functional manner with long-term success.
