FACULTY DEVELOPMENT PROGRAM

Workshop on

E-Learning : Content Development & Hosting

With the advent of Internet and technologies, the access to information has become very easy and the entire world is leaning towards digitization. 21st century students learn in a global classroom and not necessarily within four walls. They are more inclined to find information by accessing the internet through mobile phones and computers. The advancements in technology and the plethora of digital and innovative digital devices and tools have a great potential to improve educational opportunities and benefit the Millennial.

This workshop on E-content development is aimed to understand the meaning and standards of E-content, learning objects, designing and development of digital resources for teaching and learning. Thus this workshop aims at providing the knowledge and skill for teachers to cater to present day learners and their learning styles. The workshop includes lectures as well as extensive hands-on planning which will provide both theoretical and practical exposure to the participants.

LEARNING OUTCOMES OF WORKSHOP
